

## SCIENTIFIC PROGRAM

### SESSION LECTURE

No. 33

COPD Epidemic and Primary Care

Room: 306B

Co-Chairs: Chen Wang

Christopher Cooper

Day 2 October 28<sup>th</sup> (Sunday) 13:30 – 17:00

Time	Speaker	Title
13:30-14:00	<b>Christopher Cooper</b> <i>University of California at Los Angeles, USA</i>	The Global Challenge of COPD and Current Treatment Guidelines
14:00-14:30	<b>K.K. Cheng</b> <i>Institute of Applied Health Research, University of Birmingham, UK</i>	The role of primary care in COPD
14:30-15:00	<b>Alberto Papi</b> <i>University of Ferrara, Italy</i>	COPD exacerbations and infections
15:00-15:15	<b>Tea Break</b>	
15:30-16:00	<b>Yongchang Sun</b> <i>Peking University Third Hospital, China</i>	The promotion of primary care system in respiratory disease prevention, diagnosis and control
16:00-16:30	<b>Ting Yang</b> <i>China-Japan Friendship Hospital, China</i>	Pulmonary Tuberculosis and Chronic Obstructive Pulmonary Disease
16:15-16:45	<b>Ting Yang</b> <i>China-Japan Friendship Hospital, China</i>	COPD in China: A call for promoting national primary care system in research and practice
16:30-17:00	<b>Liwen Fang</b> <i>The National Center for Chronic and Non-communicable Disease Control and Prevention, China</i>	Surveillance of chronic obstructive pulmonary disease in China

### Chen Wang

[cyh-birm@263.net](mailto:cyh-birm@263.net)

Chen Wang, MD, is a full professor and chief physician in pulmonology and critical care medicine. He is the director of hospital respiratory disease center and National Center of Respiratory Clinical Research. He is also the leader of state research base of respiratory diseases, the leader of pulmonology and pulmonary circulation research and innovation team in Ministry of science and technology, the chairman of the respiratory arm of Chinese Medical Doctor Association (CMDA), the vice chairman of CMDA, the honorary chairman of Chinese Thoracic Society (CTS), the honorary academician of Imperial College School of Medicine.

### K.K. Cheng

[k.k.cheng@bham.ac.uk](mailto:k.k.cheng@bham.ac.uk)

FMedSci, Director, Institute of Applied Health Research, University of Birmingham; Director, General Practice Development and Research Centre, Peking University Health Science Center. KK Cheng has been Professor at the University of Birmingham since 1995. His main interests are in the epidemiology, prevention and control of important non-communicable diseases, and the development of primary care in China. He founded the Department of General Practice at Peking University Health Science Center in 2011.

### Liwen Fang

[fangliwen@ncncd.chinacdc.cn](mailto:fangliwen@ncncd.chinacdc.cn)

Professor Liwen Fang is a researcher at the National Center for Chronic and Non-communicable Disease Control and Prevention, Chinese Center for Disease Control and Prevention. Her research programme mainly focuses on the surveillance and prevention of chronic obstructive pulmonary disease (COPD). The aim of the program is to understand the epidemic and trends of COPD and its related risk factors in Chinese residents, to explore the cause of COPD development, and to develop the comprehensive strategies and measures for the prevention and control of COPD.

### Christopher Cooper

[christopher.x.cooper@gsk.com](mailto:christopher.x.cooper@gsk.com)

Dr. Chris Cooper is Professor Emeritus of Medicine and Physiology at the David Geffen School of Medicine, UCLA, based in Los Angeles, California. He is Principal Investigator of the NIH sponsored SPIROMICS project at UCLA. His interests include exercise physiology and exercise testing, chronic obstructive pulmonary disease, emphysema, pulmonary rehabilitation and oxygen therapy.

### Alberto Papi

[ppa@unife.it](mailto:ppa@unife.it)

Alberto Papi is full professor of Respiratory Medicine and Director of the Section of Respiratory Diseases of the Department of Clinical And Experimental Medicine of the University of Ferrara at S. Anna University Hospital, Italy. He is Deputy Director of the Department of Medical Sciences and Deputy Director of the School of Medicine of the University of Ferrara. He is Member of the Asthma Board of the European Academy of Allergy and Clinical Immunology. The principal field of research is airway inflammation in asthma and COPD, its molecular mechanisms and pharmacological modulation.

### Ting Yang

[dryangting@qq.com](mailto:dryangting@qq.com)

Dr.Ting Yang is director of clinical diagnosis and examination division, vice director of pulmonary and critical medicine division III of China-Japan Friendship Hospital. As a chief physician/full professor, she supervises graduate students on COPD research. Dr.Ting Yang is a member of China Thoracic Society Assembly of COPD, vice director of CACP COPD committee, vice chairperson of China COPD League.

### Yongchang Sun

[suny@bjmu.edu.cn](mailto:suny@bjmu.edu.cn)

Dr. Sun is Professor of Medicine, Chairman of Department of Respiratory and Critical Medicine at Peking University Third Hospital. His research focuses on inflammation and immunological mechanisms in COPD and its comorbidities including bronchiectasis, osteoporosis and tuberculosis.
