

## SCIENTIFIC PROGRAM

### SESSION LECTURE

No. 61

Transplantation-1

Room: 213

Chair: Zhongyang Shen

Day 2 October 28<sup>th</sup> (Sunday) 14:30 – 16:10

Time	Speaker	Title
14:30-14:40	<b>Zhongyang Shen</b> <i>Tianjin First Central Hospital, China</i>	Speech
14:40-15:10	<b>Mureo Kasahara</b> <i>Okura, Setagaya-ku, Japan</i>	Current situation and future of pediatric liver transplantation: Implication from big data of Japanese liver transplantation registration system
15:10-15:40	<b>Xianchang Li</b> <i>Houston Methodist, Weill Cornell Medical College, USA</i>	Assessment of immune repertoire in predicting post transplant death
15:40-16:10	<b>Cristiano Quintini</b> <i>Digestive Disease and Surgery Institute, Cleveland Clinic, USA</i>	Normothermic Organ Preservation

### Zhongyang Shen

[zhongyangshen@vip.sina.com](mailto:zhongyangshen@vip.sina.com)

Dr. Zhongyang Shen, serves as the standing committee of CPPCC, is a renowned leader in the field of organ transplantation in China. Dr. Shen is the president of Tianjin First Central Hospital, the director of China Organ Donation Administrative Center. Dr. Shen developed specific Hepatitis B immune globulin (HIBG) and proposed a joint prevention scheme by use of Lamivudine plus HBIG, which can effectively prevent the recurrence of HBV after liver transplantation and widely used in liver transplantation in China.

### Mureo Kasahara

[kasahara-m@ncchd.go.jp](mailto:kasahara-m@ncchd.go.jp)

Dr. Mureo Kasahara is a famous living liver transplant specialist in Japan. He graduated from the University School of Medicine, Gunma in 1992. Dr. Kasahara started living liver transplantation since 1996 has performed more than 1300 cases of living liver transplantation so far.

### Cristiano Quintini

[quantic@ccf.org](mailto:quantic@ccf.org)

Dr. Cristiano Quintini is a famous liver transplant specialist working at Cleveland Clinic as a surgeon. He has 19 years of experience for Hepatobiliary Surgery and Liver Transplantation. His research work is focused on preservation of donor organs using normothermic organ perfusion.

### Xianchang Li

[xcli@houstonmethodist.org](mailto:xcli@houstonmethodist.org)

Dr. Xian C. Li is the director of the Immunobiology & Transplant Science Center at Houston Methodist Research Institute. Dr. Li served as deputy director of the Transplant Research Center at the Brigham and Women's Hospital, a teaching hospital of Harvard Medical School before joining Houston Methodist. Dr. Li completed his medical training in China before joining the transplant team at London Health Science Center and the University of Western Ontario in Canada to do his doctoral training in transplant immunology.
